
EARN EXTRA CASH WINDSURFING!

Posted by kirstysweeney - 2008/04/24 16:04

Hi everyone!

Just wanted to introduce myself. I am Kirsty and I thought you would be interested in a new great website!

It is yoorgooroo.com. It 'promises to revolutionise online sports teaching' and it is a great concept

1. users video their windsurfing technique problem and upload it
2. they browse yoorGooRoo.com's selection of GooRoos and choose one on the basis of experience, language, user rating and price
3. the GooRoo analyses the problem and uploads a personalised video solution
4. the user downloads the solution to their technique problem
5. the GooRoo is paid by yoorGooRoo.com

I really think it is going to work as people are now familiar with the process of making a video and uploading it to a web site

There is a huge untapped market for personal sports tuition from experts, (DVD's, specialist magazines, books or existing "HowTo" websites are NOT "one to one")

Also many professionals are familiar with new technology such as video making and editing

It is pre launch but recruiting now. Great way to earn extra cash or improve at windsurfing.

They ask that if you want to be a GooRoo you need to understand your sport inside out, be able to teach and have some basic ability to edit a movie using one of the video editing packages available, consumer or professional

Oh and they are also running a draw to win an HD video camera if you sign up!
:cheer:
