It looks like these guys (Daily Post) have no knowledge in the quality and potential of windsurfing in West Kirby.

Where can I find some of the old threads from the our discussions on Hotels as several of them explained the potential opportunities very well?

try entering "hotel" or "west kirby hotel" in the search box top right of the forum area (the one that says "search forum" in it.....

I did and spotted this entry which may be what you were remembering?
