
pacific masts?

Posted by dransy - 2008/08/04 21:05

Just won a pacific mast on ebay.

Anyone heard of these i cant find much info about them.

Its a mast to get me started , also will any make of mast extension fit it?

cheers

marc

Generally, a regular mast requires a regular extension, and a skinny mast has a skinny extension. I'm guessing it's a regular. What is crucial is that the extension matches the mast foot, ie the bit that attaches the mast to the board. There are two types ie "North" and Pin. and it really matters.
