Here is my new page about weather.
graphical view for the current conditions
graphical view of the wind for the 5 next days forecast
graphical view of the wind for then 24 next hours forecast.
map available.

It works for australia, new zeland, hawaii, canary islands and many more to come (UK, morocco, etc...).

Sample for KAILUA (Hawaii)

Sample for SYDNEY (australia)

Country chooser

Tell me what you think about it in order to improve it. thanks ;)
