## MWS - My Wind Sessions - New feature...

Posted by loopyloop13 - 2016/12/20 08:16

To make equipment utilization statistics even more relevant and accurate, you can now specify the exact usage time of each equipment during a session.

Previously, using 2 boards on a 3 hours session for example, led to a duration of 3 hours for each of the boards.

Now you can specify that you used the 1st board for 1h and the 2nd one for 2h for example.

This new feature provides better and more precise statistics, and much more closer to reality.

Do not hesitate to register on MWS to discover the site and give me feedback.

MWS is totally free and without ads, and will stay in 2017.

Merry Christmas and enjoy wind & sea.
